

GUIDE TO DOING BUSINESS IN THE UK

The UK remains a key location for companies with international aspirations, with many compelling reasons for establishing a commercial base there. Shoosmiths LLP, the WSG member for England & Wales, has produced a Guide to Doing Business in the UK which is intended to help companies understand the commercial environment in which they will operate and gives an overview of key considerations when deciding whether to establish a business presence in the UK.

A copy of the guide is available to download from the Shoosmiths website.
