

## Press Release

May 26, 2010

### **Heuking Kühn Lüer Wojtek Publishes Third Edition of "Doing Better Business in Germany" – A Source of Information for Foreign Business People and Lawyers**

Law firm Heuking Kühn Lüer Wojtek published the third, updated edition of its English-language guide "Doing Better Business in Germany".

The 184-page brochure which discusses 26 legal and tax topics was extensively revised and updated by a total of 34 of the law firm's partners and attorneys. All authors are experts in their field and their articles are aimed both at international lawyers and at entrepreneurs wanting to obtain information on the particularities of the German legal system. The new edition is to be introduced at the law firm's international reception at this year's Annual Meeting of the International Trademark Association (INTA) and the Annual Meeting of the Global Advertising Lawyers Alliance Inc. in Boston/USA.

Since the time that its first edition had been published in 2007, the guide has been met with high interest since the German legal system turns out to be one of the most complex and comprehensive legal systems in the world. Rudolf du Mesnil, Partner at Heuking Kühn Lüer Wojtek and one of the leading forces behind the publication, is well aware of the demand in legal guides: "In the course of my international activities, I keep encountering questions by my clients and by my foreign counterparts pertaining to the business environment in Germany in practical, legal and tax matters. "Doing Better Business in Germany" provides an initial overview and gives readers the information needed to better judge and prepare the demand for tax and legal counseling regarding their investment and exporting projects."

Dr. Andreas Urban, member of the law firm's Management Team, adds, "This booklet offers our international business partners a concise introduction into the German legal system.

Such a guide assists in reviewing the framework conditions of our market more quickly and in obtaining the relevant information. I wish I had a comparable guide available for some other international partner countries."

The booklet is available for download free of charge at Heuking Kühn Lüer Wojtek's website (<http://www.heuking.de/aktuelles/broschren>). A print version may be requested at [pr@heuking.de](mailto:pr@heuking.de).
